

R\_modify\_response

```
graph LR; A[R_modify_response] --> B[get_jointtransf]; A --> C[get_transformation]; A --> D[get_variable];
```

A diagram illustrating the structure of the `R_modify_response` function. It is a black rectangular box on the left. Three blue arrows originate from its right side and point to three white rectangular boxes on the right. The top arrow points to a box labeled `get_jointtransf`. The middle arrow points to a box labeled `get_transformation`. The bottom arrow points to a box labeled `get_variable`.
